

WOMEN'S COUNCIL MEMBERSHIP

The BIA BAY AREA Women's Council, chartered in 1991, is an active group of professional women and men affiliated with the Home Builders Association of Northern California, California Building Industry Association and National Association of Home Builders.

In 2004, the council name was changed to add the words *Professional Women in Building*, which better describes the composition of our members who work in all aspects of the building industry: as builders, business owners, marketing experts, architects, lawyers, interior designers, sales representatives, mortgage bankers and more. This professional group is dedicated to promoting, enhancing and supporting home building and women in the industry.

Members actively participate in legislative and political support as well as educational, networking and charitable projects supporting HomeAid and other organizations. Many opportunities are available for active, visible participation on committees within the organization. Members can choose to be as active as they desire. All levels of participation are welcome.

TOGETHER WE CAN DO SO MUCH MORE ...

ACTIVITIES

The council's main BIA BAY AREA activities are in the areas of education, fundraising for charities and legislative and political action.

The goal of our group is not only to raise funds but to provide resources and support for our members and the BIA BAY AREA. We strive to recognize our outstanding members through annual awards and provide the vehicle for many of our members to move into positions of leadership within this and other Association committees and councils.

We are the organization representing women in the Northern California home building industry and are dedicated to supporting the professional development of our members through mentoring programs, educational classes and personal support.

The BIA BAY AREA Women's Council is a big supporter of HomeAid of Northern California, the charitable arm of the Association, and other charities throughout the Bay Area.

There are opportunities for committee involvement offering personal and professional fulfillment and a means to advance careers and make lifelong friendships. Networking gatherings and educational seminars offer venues for peer interaction.

All Women's Council members are invited to participate on committees and projects, including community outreach, education, legislative affairs, membership, programs, public relations and scholarship.
